PERNIN SYSTEM EASILY LEARNED

The Pernin System of Shorthand is the most ensily learned, the simplest most legible and rapid in use. It is a non-position, non-harden and connective vowel system. In it no arbitrary word signs are used. The confusing and discouraging elements common to other systems have been avoided in the building of this. It is one of the new systems, and is constantly superseding the older and more complicated ones in our leading schools and colleges throughout the country.

Inasmuch as this is a connective vowel system with no arbitrary word signs, it is applicable to foreign languages also. Owing to the great possibilities of the system, Pernin Shorthand writers are in great demand as government stenographers and court re-
